Review of the 2005 Town survey and updated survey

General comments were:

- Feeling that not much had changed in the town
- Makes a lot of sense to do a new survey
- Question regarding presenting the results at the annual meeting in April
- Annual meeting likely to be postponed to a future date
- How are the results going to be tabulated? Who will do that?
- Should have the UW Extension do the tabulations
- What will we provide to people?

- Whose decision is it going to be if a large percentage of respondents want change
- Voice to prompt change would instruct the PC to dig into whatever the subject is
- Question on who should get the survey
- One survey per household or one per person
- Registered voters
- Include non-resident, landowners
- Should renters receive the survey, no current financial connection, as residents they do have a vested interest
- Should be communicated when the survey is delivered
- Age group of 55-64 is missing in the draft survey
- Want to hear what people have to say
- Compile these and see where the chair wants to go
